

## CAJOCARE - PREVENTIVE MAINTENANCE

### IMPROVED EFFICIENCY WITH PREVENTIVE MAINTENANCE

Regularly scheduled **CajoCare** maintenance checks enable equipment longevity with minimal loss of productivity. CajoCare offers several benefits that increase reliability, efficiency, safety, and cost-effectiveness throughout the life cycle of the equipment.

Preventive maintenance includes periodic inspections, adjustments, and equipment service to prevent failures and ensure optimal performance. The benefits of preventive maintenance are numerous and have an overall positive impact on production processes. Preventive maintenance is the most cost-effective way to avoid possible issues by providing production security and ensuring production efficiency.

#### REDUCED DOWNTIME

Preventive maintenance helps minimise unplanned downtime by identifying and fixing potential problems before they escalate.

#### IMPROVED EQUIPMENT RELIABILITY

Regular maintenance helps identify and fix minor issues early on and prevents them from growing into more serious problems.

#### EXTENDED EQUIPMENT LIFETIME

Proper maintenance ensures the longevity of machinery and equipment. Periodic inspections and maintenance prevent premature wear and tear and reduce the need for frequent replacements.

#### SAFETY FIRST

Regular machine maintenance ensures safe operation. Periodic inspections are crucial to ensure that faulty equipment does not pose a safety risk to workers.

#### IMPROVED EFFICIENCY

Well-maintained equipment tends to work more efficiently. This can reduce energy consumption, lower operating costs, and improve overall performance.

#### COST SAVINGS

Although there are upfront costs associated with preventive maintenance, it is generally more cost-effective than dealing with major faults and emergency repairs.

#### COMPLIANCE WITH REGULATIONS

In certain industries, compliance with safety and environmental regulations is crucial. Regular maintenance helps ensure that the equipment meets regulatory standards.

#### BETTER DESIGN

Knowing the condition of the equipment through preventive maintenance enables better planning of maintenance schedules, resource allocation, and budgeting.

#### IMPROVED PRODUCT QUALITY

Preventive maintenance contribute to consistent and high-quality production by ensuring that the equipment functions as intended.

## CAJOCARE - PREVENTIVE MAINTENANCE

TITLE	DESCRIPTION	INCLUDED ACCESSORIES
Maintenance work	Replacing filters	Filters
Inspection	External inspection of the laser equipment	NA
Maintenance work	Inspection and cleaning the marking heads	Cleaning supplies
Maintenance work	Optics inspection and cleaning	Cleaning supplies
Adjustment work	Power measurement of the marking units	NA
Adjustment work	Checking lens calibrations / recalibrating if necessary	NA
Inspection	Inspection of the laser safety circuit	NA
Inspection	Inspection of protective structures	NA
Inspection	Inspection of actuators	NA
Inspection	Inspection of the signaling devices	NA
Inspection	Inspection of the software version	NA

- Pricing for a preventive maintenance check is equipment-specific and Cajo Service Sales will provide the customer with a targeted quote.
- Travel and accommodation expenses will be charged separately according to the general price list.
- If the maintenance check reveals a need for more extensive repair work or replacement of components, a separate quotation for the repair work and components will be issued to the customer.
